Three arc sensors and three modes: weld, cut and grind.

Gen 3.5 headgear with comfort cushion has an ergonomic design that provides extensive adjustability, settings, and enhanced support.

Digital controls easily allow welder to adjust shade, delay and sensitivity.

Auto-on/off power control triggers lens at the strike of an arc.

Meets ANSI Z87.1+, CSA and CE standards.

Optional helmet lighting accessory kit includes two lights (one for each side) and all required mounting hardware.

Auto-darkening lens is warrantied for three years.
